

Edge of Cloud (Room D)

Walking far enough from the pearly gates, you can see what appears to be the edge of Heaven. The solid cloud that Heaven seems to rest on simply becomes regular sky. Looking over the edge, you can barely even see the ground. You're not sure what is down there.

If you jump off the edge of the cloud, read the back of this sign.

You fall, accelerating faster and faster. It's kind of like skydiving, only you don't have a parachute. As suicide methods go, it's pretty neat. Eventually, you hit the ground, your bones shatter, and you die.
