

Things that can be accessed before authority has been established:

- I am sorry (sir/ma'am) but external communications are down. I have recorded some incoming messages on radio waves.
- I am not authorized to do that until authority has been established.
- I am not authorized to do that until authority has been established and a plan of action has been put forth.
- Rations and bottled water are available for you in the cabinet to the left.
- Please establish authority. (For anything else, Repeat until authority has been established)
- If the president is present, he/she has authority. If he/she has been compromised, a vote of two-thirds of those present may declare him/her temporarily unfit for duty.
- (If they ask how to establish authority) If the president is not present and alive, please follow the line of succession to find the interim president. If no one in the line of succession is present or if all those present in the line of succession are deemed unfit I am authorized to recognize either emergency military authority, or an authority selected by a majority vote of those present.

Once a president has been accounted for:

- Mr./Madam President, please indicate your Vice President, military commander and Chief Scientific Officer. Given the extremely dangerous external situation, I am not authorized to release you until you have appointed appropriate advisors and prepared a plan for proceeding.
- Once authority is established and a plan is prepared, you will have access to a fully equipped military base. Communication has not been established with any external personnel or equipment. Present on the base are 4 military helicopters, two military planes, an armored personnel carrier, several unarmored cars and personal armaments and armor in many varieties, as well as rations for 100 people for 1 year.

Once authority is fully established:

- Please provide a plan for proceeding.
