

# Sleepy Valley

Sleepy Valley is a calm, ordinary town, nestled among forested hills in a remote part of the country. It's a nice peaceful place to live away from the noise and stress of the big city.

It doesn't have much that makes it stand out from other towns, so it doesn't have much of a tourist presence, but it does draw some hunters and hikers in the warmer months who appreciate the untouched old-growth forest. The rest of the townsfolk live here year-round, working at shops and restaurants, farming, and making handicrafts.

The one distinction Sleepy Valley has, perhaps, is that over a hundred years ago, strange invaders came out of the forests and took over the town, using it as a base to expand into other areas before eventually being driven out. Some strange tales of the invasion have been passed down from people's grandparents and great grandparents, but no one alive today remembers it, and the details have passed into legend. There's a war memorial in the town square, but no one pays it much attention.

It's not that Sleepy Valley has been completely left behind by time. The highway makes it easier to visit the city than it was in the past, and supplies the market with fresh fruit and vegetables even in the winter. Snow plows and heating oil certainly make the winters easier than they were for previous generations.

All in all, it's an idyllic town, one that provides a nice, safe environment for children to grow up in. It may not look impressive, but to residents, it's home.

## Familiar Faces

- Noshi Sutherland: local high schooler who grew up here.
- Rudra Brehm: only child of a local family, grew up here before going off to join the Peace Corps.
- Kanak Dorking: well-dressed local who's away on business a lot but frequents the bars when in-town.
- Meher Madoff: wealthy stockbroker who summers in a nearby hunting lodge.
- Hema P. King: well-known fantasy author who calls the town home.

# Specuceps

Specuceps is a world of science, a world of logic, a world of magic, and a world of mirrors. In Specuceps, there are wonders and technology that far outpaces what the humans know. In Specuceps, everyone follows rules and principles to ensure that society functions efficiently for everyone. Speculoid technology and magic ensures that everyone in Specuceps enjoys a comfortable standard of living.

Specuceps values knowledge above all, and thus scientists, researchers, and librarians are the most prestigious roles. People study for years at universities in hopes to be impressive enough to be accepted as an apprentice to a leading researcher.

Since research in many other fields has been exhausted, one of the leading fields among the Speculoids is the creation and manipulation of parallel universes. Speculoid researchers observe other universes from artificial pocket realms and perform controlled tests on them, seeing how societies evolve differently when given corn instead of wheat, or given fire magic instead of ice magic.

Speculoids themselves undergo a life cycle that may seem strange to humans. When they are born, Speculoids are akin to tadpoles, confined to water. As they develop, they grow legs and arms and become humanoid, able to move easily out of water, use tools, and interact much as humans do. However, unlike humans they do not die of old age. When a Speculoid grows old, they instead take root and progress into a tree-like form, still able to talk and to manipulate objects with prehensile branches but no longer able to walk around. Since transplanting a rooted Speculoid is a delicate and risky operation, Speculoids choose where to root with great care. Tree-form Speculoids are immortal if not killed as long as they have access to the magic of Specuceps for nourishment. Elder treeform Speculoids can be important sources of knowledge and history.

There are various forms of magic that have been declared forbidden for the betterment of Speculoid society. These include:

- Magic that would allow non-Speculoids to move between universes
- Magic that would allow tree-form Speculoids to return to being able to walk around

This Library was one observation realm, designed to monitor two mirrored parallel worlds full of humans, one of which received the Power of Shadows and one of which received the Divination of Dreams. Normally, it has a small connection to each of the mirrored worlds enough to allow some travel between them and the Library. The Library's low magic levels seem to have made these connections stop functioning.

In addition, the Library was once connected to Specuceps. However, the connection of this observation realm to Specuceps has been severed, both preventing physical travel between it and Specuceps and cutting off its power source. Thus the Library's store of Specuceps magic has been running out, which seems likely to cause it to entirely collapse into the void between universes. This collapse has been repeatedly stalled with the Renewal ritual, but now it seems imminent.

# Shady Springs

Shady Springs is a peaceful, normal town, nestled atop a hill among tree-filled valleys in a remote part of the state. It's a nice calm place to live away from the pollution and hassle of the big city. It might be only a matter of time before their warming and smog reaches here too, but for now Shady Springs is pristine, surrounded by unsullied nature.

The one distinction Shady Springs has, perhaps, is the Temple of the Shadowy Text, the primary worship place of a relatively minor religious figure. Most residents attend services intermittently. The local Festival of Tomes is sponsored by the Temple and draws some good-sized crowds, though the focus these days is more on used book sales and fair food than on anything terribly religious. Aside from during the festival, the town doesn't attract all that many tourists, though there are some B&Bs that do well for themselves in the spring and fall.

The civics classes teach that Shady Springs grew up around the temple, originally as a farming town, and grew slowly over time. Over a hundred years ago, there was a great war that conscripted heavily, and a memorial to the war dead sits in the town square. But since then things have been peaceful, and most pay this history little mind.

It's not that Shady Springs is completely untouched by progress. The trains make it easier to visit the city than it was in the past, and supplies the shops with clothing and appliances made far away. Ice cream and air conditioners certainly make the summers more tolerable than they were for previous generations.

All in all, it's a perfect town, one that provides a pleasant, supportive environment for kids to grow up in. It may not look like much, but to the townsfolk, it's home.

## Familiar Faces

- Cass Peterson: local teenager who's lived here their whole life.
- Kendall Rodgers: grew up here but now travels the world as a travel writer, only sticking around occasionally in the off-season.
- Quinn Anthony: dedicate at the Temple of the Shadowy Text, holds regular services and oversees the formal portions of the Festival of Tomes.
- Ash Summers: local young adult who's graduated school and now works at the convenience store.
