

This is essentially a FAQ of what is really going on in the game.

1. What happened to Rose?

Rose was a young prostitute who got into a car with the wrong john and wound up murdered in an alley. There is not actually enough information in game to figure out who the murderer was.

2. Are there aliens? Is Hetty really hundreds of years old? Is there really magic? Is anything Flash says true?

These questions are all left unanswered in the game. Like in the real world, it is not clear whether aliens visit earth, whether reincarnation happens or whether any magic exists in the world. Some characters firmly believe that one or more of these things is true, but the game does not support or disprove these ideas.
