

## Casting Information

### Who to cast:

The six characters listed as required should be cast in order for the game to work well. We have listed an approximate order of importance for the other characters. If you have 7-11 players, we recommend adding characters in this order. Feel free to shift the order in which you add characters to fit your players. However, do not add Corvus if you do not have Hetty, and do not add Toni if you do not have Rich and Flash.

Characters are marked with their genders. Characters marked as N are neutral. Characters marked as M/N or F/N are written as one gender but can be swapped. Characters written as N/F or N/M are written as neutral but lean towards one gender.
