## Secret Message

You feel a chill run through your body, and then an electric pulsing that runs from the base of your neck to your heart and down to your arms and to the other person. You feel the chill come from them and then dissipate outward into the circle of stick creations.

You feel... different... Good. Clever. Creative. Focused.

You feel like you could take on the world, and you're ready to do this.

You have lost all empathy, all sympathy, any soft feelings you may have had before. You are ready to win this competition whatever it takes and you don't care who takes a fall when they get in your way or how.

You are a winner. You know that now.

If you think you know what is going on in the larp, please ask the GMs for Secret Message 2

## Secret Message 2

You know, if you were to buddy up to The Producers, maybe you could turn this scenario around to your advantage. Whatever demon thingie they are trying to summon will need Humans to work with and will likely reward loyalty. You could really gain some wealth and power if you help them. Worth thinking about.
