

BLIND - Phillip (The younger brother)

Phillip

“I’m weed among flowers.”

From the day you saw Julia, you knew you would love her the rest of your life, but you never got the courage to say it, before it was too late. The day you had decided to tell her, you were hit by a car and paralyzed from the waist and down. To ask Julia to get together was pointless, now you were miserable and couldn't get the thing between your legs to work anymore. The day on the accident Christian found you, saved your life and took care of you in a way he never had done before. Later on he got together with Julia. It Seemed strange on one hand, but on the other it was nice to have Julia close in the family. Christian had a tough childhood, but after the accident he had lighten up and tried to make your mother happy. You knew he forged diplomas to get into the university, but it was with the best attentions. You couldn't get into the university after the accident and your mother would be devastated if none of you were going. Sometimes you just have to do something wrong to do something right.
